T32N R1W Section 1 (Unit E) Taylor County WI

Sale Area: 212Acres

<u>SPECIES</u>	<u>VOLUME</u>	<u>ADVERTISED VALUE*</u>
MX HWD ²	550 CDS	\$10.30/CD
ASPEN	1350 CDS	\$10.90/CD
BASSWOOD	55 CDS	\$2.70/CD
BALSAM FIR ³	20 CDS	\$2.70/CD
MX HWD LOGS ¹	27 MBF	\$73.00/MBF

¹ MX logs

consists of 67% Maple, 25% Basswood, 8% Ash.

² MX pulp consists of 82% Maple & 14% Ash

³ Balsam fir component 20% Spruce

Minimum Acceptable Bid: \$22,553.50

*Species/product bids may be less than advertised value, but more than \$0.00 and bids must meet or exceed the total minimum bid of \$ 22,553.50

Paint Color Scheme:

- **Orange:** Stand boundary and leave trees. Do not cut any orange marked trees.
- **Red:** Private boundary. Do not cut any red marked trees.
- **Blue:** Cut trees. Cut all blue marked trees.

Harvest Requirements:

- Pulpwood will be sold by the cord. If weight conversion from tons to cords is necessary, the following factors will be used.

MX HWD: 4800lbs/cord

BASSWOOD: 3850lbs/cord

ASPEN: 4500lbs/cord

BALSAM FIR: 4250lbs/cord

- Harvesting operations are limited to **frozen or firm (dry) conditions only** for all stands.
- Aspen Salvage/Regeneration harvest, Units A and C: all non-wind damaged conifers, birch, oak, elm and cherry & any trees marked with orange paint are

reserved. Cut all other stems 2" and greater. Crush as much as possible the non-merchantable ironwood and musclewood.

- Hardwood Salvage/Selection harvest, Unit B & Hardwood Salvage/Improvement harvest, Units D and E: all wind damaged trees (broken, uprooted, or leaning at greater than a 20° angle from vertical), all merchantable ironwood and aspen are designated for removal and all trees marked in blue paint are to be cut. Crush as much as possible the non-merchantable ironwood and musclewood.
- For all stands hemlock, yellow birch, white birch, red oak, butternut & white pine are reserved unless they interfere with logging operations. Contractor must obtain permission from sale administrator prior to the cutting of any reserved trees that interfere with logging operations.

Additional Requirements

- NO SALE MAY BEGIN WITHOUT PRIOR NOTIFICATION AND ON-SITE MEETING WITH A WISCONSIN DNR SALE ADMINISTRATOR.
- Sale will be mill scale using a 30 day billing period.
- No bid bond required. A performance bond of 15% of the total sale value will be required. A 2 year contract length, which covers 2 full winter harvest seasons. Utilization to at least a 4" top.
- A 10-foot slash removal zone along private property lines (red line), Forest Service Road 101 & County Roads D & N.
- Slash height less than 24" within 100 feet from Forest Service Road 101 & County Roads D & N. All other areas slash height to be 36" or less.
- Contractor is responsible for attaining decking permission along a township maintained road. Landings should be located 100 feet from collector road. Decking locations will be discussed at pre-sale meeting.
- Any non-frozen hauling will require approaches to be graveled, 100 feet by 12 feet and 6 inches deep. Forest Service will supply gravel at their pit.
- Logging Operations Ahead signs (DOT approved) will need to be placed by the contractor on Forest Service Road 101& County Roads D & N.
- Keep all logging debris and machine operations within sale boundaries. Private Boundary marked in red paint.
- Leave all standing snag and den trees that do not pose a safety hazard.
- Equipment must be cleaned and inspected by DNR staff before entering and leaving the sale area to prevent the introduction of invasive species. No invasive species were observed within any of the harvest areas during sale establishment.
- Any new temporary roads or turn-arounds will need approval by the timber sale administrator.
- Temporary Roads shall have the road base constructed to a width of 12 feet or narrower, and with vegetative clearing of trees and brush not to exceed a width of 25 feet. Exceptions to the 12 foot maximum width of the road base may be granted by the sale administrator. Exceptions would typically be granted for

sections of temporary roads where tight turns, curves, and terrain create a need so that trucks and equipment can be operated safely.

- DNR Timber Sale Administrator will be contacted prior to any pre-harvest road work. Contract and road maintenance details can be obtained from Lead Forester, Maggie Lorenz at 715-762-1435
- No harvest activity allowed in Unit B between April 1st to October 1st within 300 feet of small stream.
