“Ottman”
Sale Area: 237 Acres
Tract # 8001-02-24

Location: Townships of Barksdale & Pilsen / Bayfield County, Wisconsin

Comp-Stand	Town	Range	Section	Acres
146-14	47N	6W,7W	1,6	120
147-2	48N	6W	32	39
147-5	48N	6W	32	17
147-29	47N, 48N	6W	5,6,31,32	32
147-30	47N, 48N	6W	5,6,31	29

SPECIES	VOLUME
Red Pine	2600 CDS
Jack Pine	145 CDS
Aspen	10 CDS

Minimum Acceptable Bid: \$94,717.00

- Red pine conversion rate will be 2.250 tons per cord.
- Jack pine conversion rate will be 2.125 tons per cord.
- Aspen conversion rate will be 2.250 tons per cord.

*Red pine total contains approximately 640 mbf.

*Jack Pine total contains approximately 20 cords of white pine.

Harvest Requirements

*Cutting prescriptions are listed on the sale map.

Design Features and Mitigation Measures

The following requirements apply to all stands:

- Do not harvest trees or operate equipment across orange paint line.
- Use of heavy equipment during excessively wet weather will be limited. This will be controlled during project administration. Season of operation would be year-round on this site.
- Discourage the spread of non-native invasive species, especially spotted knapweed, and the common buckthorn through proper cleaning of logging equipment before entering and leaving the sale area.
- Reserve all snags unless they pose a safety concern. A maximum of 10 snags per acre is desired.
- All pine products cut between May 1 and September 1 must be removed from the sale area within three weeks from time of cutting. Pine products cut during the remainder of the year must be removed prior to May 1 of each year.

The following are stand specific slash requirements:

- All slash 150 feet from the edge of all roads and trails should not exceed 2 feet in height.
- Visible portions of timber harvesting, or other vegetation removal areas should receive the primary emphasis for slash treatment.

The following are specific road and trail requirements:

- Chequamegon-Nicolet Forest Plan requires that all native surfaced approaches to paved or graveled roads have 100 ft. of gravel, 6 in. deep and 12 ft. wide put down when used during non-frozen conditions. **FR 405 will need rock approach to FR 236.**
- All landings and skid trails will be blocked to vehicular access and possibly re-seeded at the conclusion of use if needed.
- Purchaser required to post signs on USFS roads alerting recreationalists of thinning activities.
- All road maintenance and rehabilitation post-harvest is the purchaser's responsibility. A sample contract including road maintenance specifications can be obtained by request.
- The location and clearing widths of all Temporary Roads shall be agreed to in writing before construction is started. "Temporary Roads" are roads other than Specified Roads that are constructed by Purchaser for the purpose of harvesting included timber.
- Temporary Roads shall have the road base constructed to a width of 12 feet or narrower, and with vegetative clearing of trees and brush not to exceed a width of 25 feet. Exceptions to the 12-foot maximum width of the road base may be granted by the sale administrator. Exceptions would typically be granted for sections of temporary roads where tight turns, curves, and terrain create a need so that trucks and equipment can be operated safely.
- All Temporary Roads and other Roads noted in prescription for use in sale will be closed from working when sale is completed. Due to excessive ATV use and "sand country" the Washburn District utilizes logging slash/stumps/debris for 100 feet beyond the berm. GNA sales will need to be consistent with current Washburn District Forest Service practice.
- Road maintenance and restrictions details are listed in the timber sale contract. Please contact the forester listed on the sale map for more information.
- **No decking on town roads without township permission. Certain townships require written permission. This document will be required in selected townships.**

Additional Requirements

- Sale will be billed using mill ticket system.
- No bid bond required, a performance bond of 15% of the total sale bid value will be required.
- 3-year contract period. **Contract ending date of June 30, 2027.**
- **NO SALE MAY BEGIN WITHOUT PRIOR NOTIFICATION AND AN ON-SITE MEETING WITH A WISCONSIN DNR SALE ADMINISTRATOR.**

Jack Pine	4 in	145	Cords		
Aspen	4 in	10	Cords		

The award shall be based on this TOTAL BID AMOUNT:
--

Performance Bond Will be in the form of: (select one)

Personal Check
 Assurance Bond
 Certified Check/Money Order
 Certificate of Deposit
 Irrevocable Letter of Credit
 Assignment of Savings Account

I understand that any or all bids may be rejected and that consideration and awarding of a contract will be based upon my past performance and ability to complete contracts. **I also understand that if I am the winning bidder, I have 6 weeks from the date of the bid opening to submit an acceptable performance bond. I also understand that if I am awarded the contract and fail to execute it or work under it, I will be required to forfeit to the Department an amount equal to 10% of my total bid amount.** Failure to forfeit the 10% penalty will result in being considered ineligible to bid on any state timber sales for a two-year duration. In the event the highest bidder can not or will not sign the contract, the award may be made to the next highest qualified bid.

By checking this box, I certify that I hold a Wisconsin Master Logger Certification.

Notice: I understand:

Utilization specifications and estimated volumes are listed in the prospectus which is available upon request from the Department.

A copy of the standard timber sales contract which must be entered into is available upon request from the Department.
