

BRSF Tract 2-23
Perry Creek Popple
T21N-R4W Sec. 25, 26 & 35

Sale size: 106 Acres
Contract Period: 3 years

Estimated Volume

<u>Species</u>	<u>MBF Included in Volume</u>	<u>Cord Equivalent</u>	<u>Tons</u>
*White Pine	337	900	1,900
Aspen	0	735	1,650
Oak	32	510	1,400
**Red Maple	0	530	1,200

*White Pine includes a small volume of red and jack pine.

**Red Maple includes a small volume of birch, elm, and hackberry.

Biomass harvesting is not allowed.

Scaled Sale

Minimum Bid Value = \$52,860.00

Special Operating Requirements and Slash Disposal:

1. **No cutting or skidding allowed between April 1st and July 15th due to oak wilt concerns.**
2. All pine products cut between March 1st and August 30th must be removed from the sale area within three weeks from time of cutting. Pine products cut during the remainder of the year must be removed before March 15th.
3. Whenever State Forest recreational trails are used or crossed by logging equipment or trucks, any damage must be repaired to the satisfaction of the DNR Parks staff.
4. Biomass harvesting is not allowed as slash will be necessary to protect the ground in some low-lying areas.
5. The majority of this sale is located on dry ground, with some wetland inclusions and lower lying ground along red paint lines. Approximately 20% of the sale area will require extra care and dry or frozen conditions to avoid rutting.
6. Slash must be evenly lopped/scattered within the sale boundary and shall be deposited a minimum of 10 feet from the mowed right-of-way of any highway, town road, or recreational trail. Slash within 50 feet of all town roads and recreational trails must lie within 2 feet of the ground. Do not bury seedlings or saplings with slash.

General Requirements:

1. All designated tree species must be cut and forwarded concurrently with the sale.
2. All stumps shall be no higher than the stump diameter, or 10 inches, whichever is less.
3. Do not cut or knock down any dead or hollow trees. These are important wildlife habitat. Any that must be cut shall be left in big pieces on the forest floor.
4. Utilization: cut and use all designated trees with one or more 100" sticks to a 4" top diameter.
5. Any new roads and all landings must be approved by a DNR forester before operations begin.
6. Contractor will be required to close off access roads upon completion of sale to Forester's satisfaction.
7. Any trees cut or pushed over for new roads or landings must be utilized or cleaned up to the DNR Forester's satisfaction.
8. Notify DNR Forester (Ian Remus 715-928-2462) before you start the job and each time you pull out or return to the job.
9. Contact the town of Brockway prior to beginning logging operations at 715-284-5234. Permits are required for hauling heavy loads on town roads and approvals are needed for any new driveway approaches.
10. **Wisconsin's Best Management Practices for Invasive Species applies – contractor must clean equipment before entering and leaving the sale area! This involves brushing away all dirt and cleaning air intakes of debris.**
