

HOW TO: Add a username/password to your Go Wild account

STEP 1: Log in / create your Go Wild account

- **Visit the website gowild.wi.gov.** If you have already set up a username/password for your account, you may log in directly using that. If you have not yet created a username/password, use the “Account Lookup” option to search for your account or create a new account if necessary.

- **Access your Account** - Search for your existing customer record using one of the four personal information options on the left. Or enter your username and password for your account, if you have already created one.

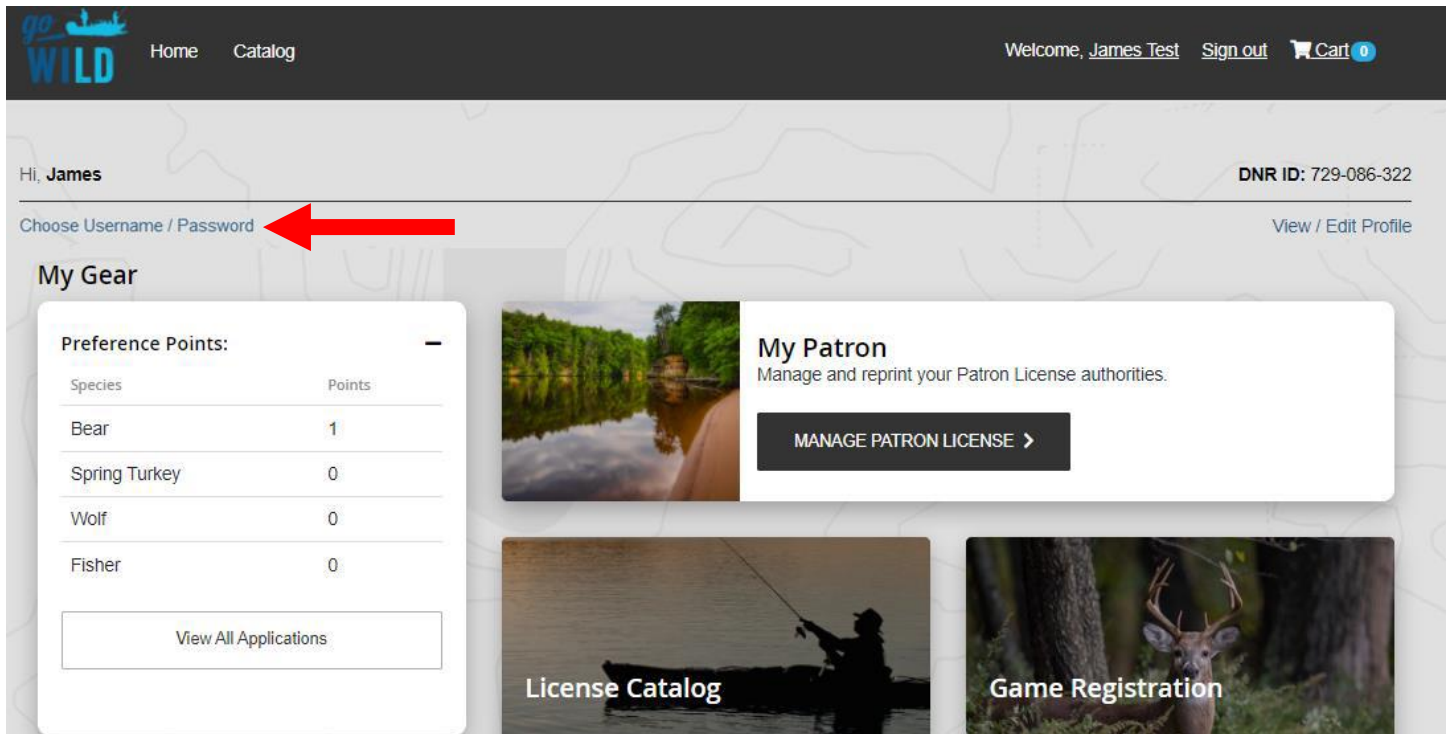

- **Welcome Back!** Enter your driver license information (optional). If you do not wish to enter your driver license, leave both the DL state and DL number blank. Next indicate your state residency (Wisconsin resident or nonresident). If you are unsure of your state residency, select the [Help me decide](#) link. *Note: To change your residency from nonresident to resident, all customers age 18 and over must include a WI driver license number.*

- **Review Summary.** Check your personal information for accuracy. If changes need to be made, select the [Edit](#) icon. If everything is correct, select the [Yes](#) button.

- **Customer Homepage.** Select the link to **Choose Username/Password** at the top left of the screen.

- **Manage Account Security.** 1) Enter a unique **username** that you can use to log into your account in the future. 2) Create a **password** and enter it in twice for confirmation. 3) Create a **Security question and answer**. This is used as a security measure should your username or password become “locked”. Use the guidelines listed on the page to create these items. Select **Save Changes** when finished.

Manage Account Security

Create Username and Password

Your Username must be between 5-20 characters and consist of letters and/or numbers.

Username *Required* **1**

Your Password must be between 7-20 characters and **MUST** contain a combination of letters and either numbers or special characters (except the "@" sign). Passwords and Security Answers are case sensitive.

Create New Password *Required* Confirm New Password *Required* **2**

Update Security Question

Security Question *Required*

Security Answer *Required* **3**

Cancel **Save Changes**

Congratulations! You have successfully created a username/password for your Go Wild account. You now have an additional option to log into your account in the future (see image on step 2 of these instructions). Make sure to secure your username, password, and security answer to make it available for future use.
