

Acknowledgments

Wisconsin's Wildlife Action Plan is a roadmap of conservation actions needed to ensure our wildlife and natural communities will be with us in the future. The original plan provides an immense volume of data useful to help guide conservation decisions. All of the individuals acknowledged for their work compiling the plan have a continuous appreciation from the state of Wisconsin for their commitment to Species of Greatest Conservation Need.

Implementing the conservation actions is a priority for the state of Wisconsin. To put forward a strategy for implementation, there was a need to develop a process for priority decision-making, narrowing the list of actions to a more manageable number, and identifying opportunity areas to best apply conservation actions. A subset of the Department's ecologists and conservation scientists were assigned the task of developing the implementation strategy. Their dedicated commitment and tireless efforts for wildlife species and natural community conservation led this document.

Principle Process Coordinators

Tara Bergeson – Wildlife Action Plan Implementation Coordinator
Dawn Hinebaugh – Data Coordinator
Terrell Hyde – Assistant Zoologist (Prioritization Process Implementation Coordinator)

Lead Scientist

Randy Hoffman – State Natural Areas Ecologist

Science Team

Regional Ecologists

Armund Bartz – West Central Region Ecologist
Catherine Bleser – South Central Region Ecologist
Owen Boyle – Southeast Region Ecologist
Joseph Henry – Northeast Region Ecologist
Ryan Magana – Northern Region Ecologist

Conservation Scientists

Loren Ayers – Research Scientist
Drew Feldkirchner – Conservation Biologist
Christina Isenring – Natural Heritage inventory Assistant Ecologist
Rich Staffen – Assistant Zoologist
James Woodford – Conservation Biologist

Terrestrial Opportunity Areas Working Group

Michele Allness – Environment Analysis and Review Specialist
Jerry Bartelt – Wildlife and Forestry Research Section Chief
Eric Epstein – Natural Heritage inventory Ecologist
Vern Everson – Forest Resource Analyst
Colleen Matula – Forest Ecologist
Eunice Padley – Forest Ecologist
Andy Paulios – Wisconsin Bird Conservation Initiative Coordinator
Jeff Schimpff - Environment Analysis and Review Specialist
Andrew Stoltman – Science Data Services Specialist

Aquatic Opportunity Areas Working Group

Michele Allness – Environment Analysis and Review Specialist
Jeff Bode – Wetlands Section Chief
Paul Cunningham – Fisheries Ecologist
Bob Dubois – Research Scientist
Paul Garrison - Research Scientist
Joanna Griffin – Fisheries Data Coordinator
Cherie Hagen – Wetlands Team Leader
Bob Hay – Herpetologist
Lisie Kitchel – Freshwater Mussel Specialist
John Lyons – Fish Research Scientist
Bill Smith – Natural Heritage Inventory Zoologist

The Wisconsin Wildlife Action Plan Prioritization and Mapping Process was funded in part by The Conservation Fund, in partnership with The Doris Duke Charitable Foundation.
