

Deer Shooting Permits 2008

By Brad Koele

Introduction

The Wisconsin Department of Natural Resources (WDNR) is responsible for issuing shooting permits for deer causing damage or nuisance. There are two types of Deer Shooting Permits issued in Wisconsin. The most common are Agricultural Damage Deer Shooting Permits which are one type of abatement used in the Wildlife Damage Abatement and Claims Program (WDACP). The second type is Nuisance Deer Shooting Permits. These permits are most commonly issued to municipalities and airports, but occasionally are issued to private landowners for extraordinary situations. The purpose of deer shooting permits is to reduce ongoing and future damage to agricultural crops and to reduce nuisance deer problems by shooting deer in "hotspot" locations, within and outside the regular deer hunting seasons. It is the policy of WDNR that farmers applying for Agricultural Deer Damage Shooting Permits also enroll in the WDACP.

Methods

Authority to remove wildlife causing damage or nuisance is granted to the Wisconsin Department of Natural Resources by State Statute 29.885. The Department issues shooting permits for deer causing damage and nuisance in accordance with Wisconsin Administrative Code NR 12.

Results

Nuisance Deer Shooting Permits

In 2008 the WDNR issued 62 Nuisance Deer Shooting Permits. Under these permits 637 deer were harvested. This compares to the issuance of 27 Nuisance Deer Shooting Permits in 2007. This increase in permits can be contributed to the development of a new Wildlife Damage Database which better tracks the issuance and harvest of deer on nuisance permits.

Agricultural Damage Deer Shooting Permits

In 2008, 720 Agricultural Damage Deer Shooting Permits were issued for agriculture damage abatement on which 5,274 deer were harvested. Deer shooting permit harvest constituted 1.17% of the total deer harvest in Wisconsin in 2008 (Table 1). On average, 7.33 deer were harvested under each shooting permit (range 0 - 93) in 2008, compared to an average harvest of 7.86 deer per shooting permit in 2007. The number of Agricultural Damage Deer Shooting Permits issued statewide increased slightly from 2007 to 2008, 717 and 720 respectively. Statewide shooting permit deer harvest decreased 6.4% from 2007 to 2008 (Table 1). Since 1998, the number of Agricultural Damage Deer Shooting Permits has steadily increased (Figure 1).

Counties in which the greatest number of deer damage shooting permits were issued in 2008 were Marinette (45), Outagamie (31), Vernon (31) and Richland (30); Table 1. Counties with

the highest number of deer harvested on deer shooting permits in 2008 were Jackson (392), Marquette (318), Grant (304), and Marinette (278); Table 1.

Deer management units in which the greatest number of deer damage shooting permits issued in 2008 were 59C (36), 71-CWD (36), 66 (30), 63A (27), and 67A (23); Table 2. Deer management units with the largest deer damage harvest in 2008 were 59C (536), 67A (267), 66 (252), 62B (224), and 15 (219); Table 2.

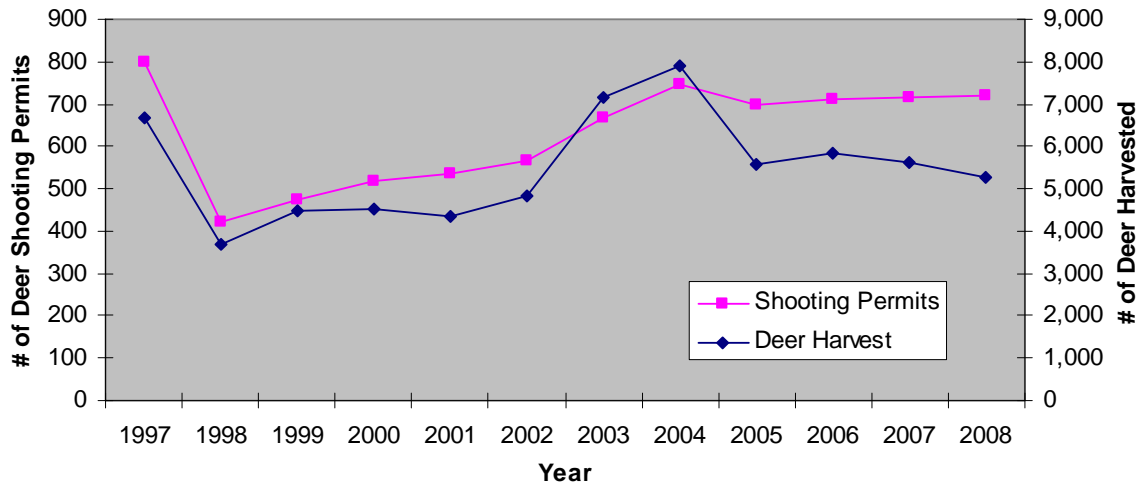

Figure 1. Trends in the number of deer damage shooting permits issued and deer harvested, 1997-2008. Damage deer harvest data, 1997 – 2000, is from the Wisconsin Big Game Hunting Summary. Damage deer harvest data, 2001 – 2008, is from information collected by the WDACP from wildlife managers issuing deer shooting permits, and may differ from damage harvest data in the Wisconsin Big Game Hunting Summary. The number of deer shooting permits issued is based on information collected by the WDACP from wildlife managers.

Table 1. *Deer damage shooting permits issued, damage deer harvest and statewide deer harvest (all seasons), 2004-2008. Statewide harvest data are from the Wisconsin Big Game Hunting Summary. Shooting permit harvest data are based on information collected by the WDACP from wildlife managers issuing deer damage shooting permits, and may differ from damage harvest data in the Wisconsin Big Game Hunting Summary. The number of deer damage shooting permits issued is based on information collected by the WDACP from wildlife managers.*

Table 2. Deer damage shooting permits issued, damage shooting permit deer harvest, and statewide deer harvest (all seasons) by deer management unit, 2004-2008. Statewide harvest data are from the Wisconsin Big Game Hunting Summary. Shooting permit deer harvest are based on information collected by the WDACP from wildlife managers issuing deer damage shooting permits, and may differ from damage harvest data in the Wisconsin Big Game Hunting Summary. The number of deer damage shooting permits issued is based on information collected by the WDACP from wildlife managers.
