

**SUBJECT: LAND ACQUISITION AND DONATION – BARABOO HILLS RECREATION AREA – SAUK COUNTY**

**FOR: MAY 2009 BOARD MEETING**

**TO BE PRESENTED BY:** Richard Steffes

**SUMMARY:** The Department has obtained an option to purchase 40.30 acres of land from Devil's Head Ski Area Leasing Company for \$262,000 for the Baraboo Hills Recreation Area in Sauk County. The item is being submitted because the purchase price exceeds the highest appraised value by \$4,000.

The property is within the Baraboo Hills State Recreation Area and adjacent to Devil's Lake State Park and the Ice Age Trail. It is a mix of wooded lands and cropland with an intermittent stream on the eastern end of the tract. This acquisition will add to a large block of protected land in the area as well as protect the eastern boundary of Devil's Lake State Park and the Ice Age Trail, which runs along the south boundary. Department ownership will provide opportunities for public recreation, consolidate department ownership, and prevent incompatible development in the area. Funding for this acquisition will use 50% LAWCON funds designated for fee acquisition in the Baraboo Hills and 50% Stewardship dollars.

The Ice Age Trail lies just across from and parallels the south boundary line of the Devil's Head property for one-quarter mile before it crosses Highway 113 to a trailhead parking area. The south entrance to Devil's Lake State Park is across from the north line of the property. Riverland Conservancy owns and manages 1,850 acres south of the Devil's Head tract including the tract adjoining the south boundary. Sauk County's preservation program holds Baraboo Hills' protective easements on the lands on the east and north sides of the Devil's Head tract and an additional 335 acres within a two-mile radius.

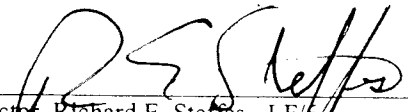

The Baraboo Range is a valuable natural resource of national and international significance. Covering more than 50,000 acres, the range contains the largest block of non-fragmented deciduous forest remaining in the upper Midwest. The range, characterized by a distinctive layer of rock known as Baraboo Quartzite, has a unique geological history. The eastern portion of the range shows many effects of glaciation. The most recent glacier did not cover the western portion of the range. The differences in elevation, exposure and soils within the range create a large variety of ecological habitats. Riverland Conservancy has offered a cash donation of \$12,000 toward the purchase, reducing the Department's cost to \$250,000

**RECOMMENDATION:** That the Board approve the purchase of 40.30 acres of land for \$262,000 for Baraboo Hills Recreation Area in Sauk County and accept the donation toward the purchase.

## CORRESPONDENCE/MEMORANDUM

DATE: May 6, 2009 FILE REF: PR 40050  
 TO: Governor Doyle  
 FROM: Matthew J. Frank   
 SUBJECT: Proposed Land Acquisition, Devil's Head Ski Area Leasing Company Tract, File # PR 40050,  
 Option Expires June 7, 2009

1. PARCEL DESCRIPTION:

Baraboo Hills Recreation Area  
 Sauk County

Grantor:

Devil's Head Ski Area Leasing Company  
 c/o Joseph Vittengl  
 S6330 Bluff Road  
 Merrimac, WI 53561

Acres: 40.3Price: \$262,000\*Appraised Value: \$258,000Interest: Fee title acquisitionImprovements: NoneLocation: The property is located about five miles southeast of Baraboo.Land Description: The land is gently rolling.

<u>Covertypes Breakdown:</u>	<u>Type:</u>	<u>Acreage:</u>
	Cropland	20.0
	Upland/Woodland	<u>20.3</u>
	TOTAL:	40.3

Zoning: Agricultural/ConservancyPresent Use: Agriculture and outdoor recreationProposed Use: Resource protection and public recreationTenure: 20 yearsProperty Taxes: \$631Option Date: February 7, 2009Stewardship Land Access: This property will be open to the public for all nature-based outdoor recreational activities to include hunting, fishing, trapping, hiking and cross-country skiing.\*Comment: Riverland Conservancy has offered a cash donation of \$12,000 toward the purchase, reducing the Department's cost to \$250,000.2. JUSTIFICATION:

The Department is proposing to acquire 40.3 acres from Devil's Head Ski Area Leasing Company in Sauk County in the Town of Merriman. The property is within the Baraboo Hills State Recreation Area and adjacent to Devil's Lake State Park and the Ice Age Trail. It is a mix of wooded lands and cropland with an intermittent stream on the eastern end of the tract. This acquisition will add to a large block of protected

land in the area as well as protect the eastern boundary of Devil's Lake State Park and the Ice Age Trail, which runs along the south boundary. Department ownership will provide opportunities for public recreation, consolidate department ownership, and prevent incompatible development in the area. Funding for this acquisition will use the majority of the remaining LAWCON funds designated for fee acquisition in the Baraboo Hills.

The Ice Age Trail lies just across from and parallels the south boundary line of the Devil's Head property for one-quarter mile before it crosses Highway 113 to a trailhead parking area. The south entrance to Devil's Lake State Park is across from the north line of the property. Riverland Conservancy owns and manages 1,850 acres south of the Devil's Head tract including the tract adjoining the south boundary. Sauk County's preservation program holds Baraboo Hills' protective easements on the lands on the east and north sides of the Devil's Head tract and an additional 335 acres within a two-mile radius.

The Baraboo Range is an extremely valuable resource of national and international significance. Covering more than 50,000 acres, the range contains the largest block of non-fragmented deciduous forest remaining in the upper Midwest. The range, characterized by a distinctive layer of rock known as Baraboo Quartzite, has a unique geological history. The eastern portion of the range shows many effects of glaciation. The most recent glacier did not cover the western portion of the range. The differences in elevation, exposure and soils within the range create an astounding variety of ecological habitats. At least 28 different natural communities have been identified within the range. These communities harbor 23 species that are federal or state-listed as threatened or endangered species. About half of the more than 2,200 species of vascular plants found in Wisconsin exist within the range. The range is also extremely important habitat for the preservation of neotropical migratory birds. Many of these birds are dependent on the continued existence of large tracts of deciduous forest for suitable nesting habitat. Preservation of the forest of the Baraboo Range is critical to the future health of these bird species.

In March of 1999, the Governor's office, the Department of Natural Resources, the Department of Transportation, the Federal Highway Administration, the National Park Service, the U.S. Environmental Protection Agency, the U.S. Fish and Wildlife Service, Dane County, Sauk County and The Nature Conservancy signed a unique agreement designed to allow for the expansion of Highway 12 to four lanes to and through the Baraboo Hills region while protecting and preserving the natural resource base of the Baraboo Range. As part of this interagency agreement, all of the parties agreed to work for the establishment of a \$5,000,000 fund to be administered by the Department of Natural Resources and used only to purchase land and land rights in the Baraboo Hills.

The Department recommends purchase of the this parcel for the Baraboo Hills Recreation Area to protect the natural and scenic resources in the area, preclude activities that are incompatible with the goals of the project and protect the unique and valuable nature of this one-of-a-kind landscape.

3. FINANCING:

LAWCON – Baraboo Hills and State Stewardship bond funds are anticipated:

Funds allotted to program:	Balance after proposed transaction:
\$6,339,642	\$87,624
LAWCON Funds allotted to program:	Balance after proposed transaction:
\$1,278,250	\$77,857

4. ACQUISITION STATUS OF THE BARABOO HILLS RECREATION AREA:

Established: 2000  
Acres Purchased to Date: 2,721.74  
Acquisition Goal: 950.00  
Percent Complete: 286.50%  
Cost to Date: \$4,948,960.07

5. APPRAISAL:

Appraiser: Julie Hanks (Private Appraiser)  
Valuation Date: April 2, 2009  
Appraised Value: \$258,000  
Highest and Best Use: Rural residential

Allocation of Values:

- a. land: 40.3 acres @ \$6,401.99 per acre: \$258,000.00
- b. market data approach used, four comparable sales cited
- c. adjusted value range: \$5,818 to \$7,525 per acre

Appraisal Review: Paul Scott -April 9, 2009

Comments: The option is \$4,000 over the appraised valued due to negotiations that took place over the last two years. The updated appraisal came in at \$258,000. The extra dollars needed to protect this parcel from development are justified. The parcel is critical as a buffer to Devil's Lake and to all the partnership work in this geographic area.

## *Acknowledgment Of Gift*

This is to certify that at its May 2009 meeting, the Natural Resources Board gratefully accepted a gift of \$12,000 from

### **RIVERLAND CONSERVANCY**

The donation will be used toward the purchase of 40.3 acres of land for the Baraboo Hills Recreation Area in Sauk County. It is significant that people like you are interested in helping protect Wisconsin's natural heritage and contribute materially toward this end.

An expression of our appreciation is a part of the official records of the Natural Resources Board. We present this certificate of sincere appreciation on behalf of present and future generations to thank you for your thoughtfulness and generosity.

*Natural Resources Board*
