

**SUBJECT: EASEMENT DONATION & BOUNDARY MODIFICATION - WILLOW CREEK FISHERY AREA - RICHLAND COUNTY**

**FOR: DECEMBER 2007 BOARD MEETING**

**TO BE PRESENTED BY:** Richard Steffes

**SUMMARY:** The Department proposes to acquire a 102.96-acre conservation easement from Philip and Dale Grimm. The item is being submitted because it is a donation and because a portion of the parcel falls outside the Willow Creek Fishery Area.

The land is located in the Town of Willow in Richland County on Robin Hollow Creek, a feeder stream to the Willow Creek. About 13 acres of the property are within the project boundary area for the fishery area. The Department owns land to the north and west that includes most of the actual stream frontage on these streams. It is proposed that the easement area be added to the fishery area for management purposes. The parcel includes 300 feet of frontage on each bank of Willow Creek. Willow Creek and Robin Hollow Creek, a feeder stream to the Willow Creek are both Class I trout streams. That section of stream has a public fishing easement acquired in 1974. This conservation easement will prevent subdivision and protect the natural and scenic qualities of the land.

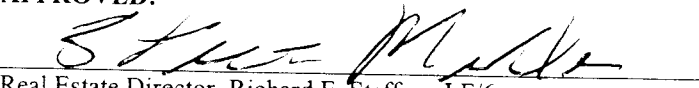

Acceptance of this easement donation will ensure that the land will be protected and the wetland restoration completed on the property as well as prevent it from subdivision into several home sites.

**RECOMMENDATION:** That the Board accept the donation of the conservation easement on 102.96 acres of land, approve a modification of the project boundary and increase the acreage goal from 784.25 acres to 874.25 acres in order to accommodate the Willow Creek Fishery Area to include the parcel. Lastly, that a certificate of appreciation be sent to the donors, and that an expression of appreciation be made part of the official records of the Natural Resources Board.

	Upland Woods	25.0
	Cropland	50.0
	Grass/Pasture	17.96
	Wetland	10.0
	TOTAL	102.96

Water Frontage: There are 300 feet of frontage along Willow Creek as well as frontage on Robin Hollow Creek, a feeder stream to Willow Creek. Both streams are Class I trout streams.Zoning: Agricultural and FloodplainPresent Use: Recreation and AgricultureProposed Use: Natural Resource Protection and Scenic ProtectionTenure: 12 years2. JUSTIFICATION:

Philip and Dale Grimm have offered the donation of a 102.96-acre conservation easement located in the Town of Willow in Richland County, two miles from the Sauk County line, for the Willow Creek Fishery Area. About 13 acres of the property are within the project boundary. The Department owns land to the north and west that includes most of the actual stream frontage on these streams. It is proposed that the easement area be added to the fishery area for management purposes. The parcel includes 300 feet of frontage on each bank of Willow Creek. Willow Creek and Robin Hollow Creek, a feeder stream to the Willow Creek are both Class I trout streams. That section of stream has a public fishing easement acquired in 1974. This conservation easement will prevent subdivision and protect the natural and scenic qualities of the land.

The subject is located on Robin Hollow Creek, a feeder stream to the Willow Creek Fishery Area. The Willow Creek Fishery Area is located in southwest Wisconsin, 40 miles west of Madison. Willow Creek is one of the longest trout streams in southwest Wisconsin, and attracts anglers from all parts of the state. Natural reproduction of brown and some brook trout occurs in this section of the stream that serves as a natural hatchery for Willow Creek. The project was established to manage the creek for trout fishing and other recreational use. The property is currently managed for fishing and fish habitat improvement. It is used by the public for fishing, hunting, trapping, hiking and other outdoor recreation.

The Grimm property includes steep, scenic hillsides facing Willow and Robin Hollow Creeks. Part of the bluff contains a remnant population of hemlock. The owners have engaged in several wetland and prairie restoration projects since acquiring the property.

The Department recommends the acceptance of this donation to preserve the open, undeveloped characteristics of the property and the natural and scenic qualities of the land. Acceptance of this donation will also provide a scenic buffer to the fishery area, protect water quality of the stream, and consolidate ownership in the Willow Creek Fishery Area.

3. FINANCING:

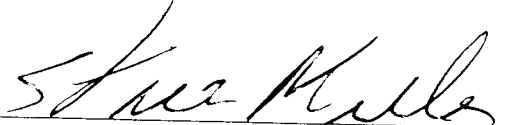

No funds are necessary

4. ACQUISITION STATUS OF THE WILLOW CREEK FISHERY AREA:

Established: 1986  
Acres Purchased to Date: 720.3  
Acquisition Goal: 784.3 Acres  
Percent Complete: 91.8%  
Cost to Date: \$429,646.48

5. APPRAISAL: None

The DNR Maintains Lands (hereinafter the boundaries of lands managed by the Wisconsin Department of Natural Resources. The Wisconsin DNR manages these lands through ownership, easement or lease rights. This data set is a spatial representation of the Oracle Land Records System maintained by the DNR, Bureau of Facilities and Lands (BFL), and may include minor, and/or erroneous. The data should not be interpreted as a legal representation of legal ownership boundaries.

This data set does not differentiate between lands that are open or closed to the public for hunting and/or general public access. Some lands, represented in this data set, may be open to the general public, or may have specific limitations or restrictions on public use. This data set is not intended for use as a land management or planning tool. It is a listing of all DNR real estate transactions that have occurred on these lands over time.

For information about the actual management, including public use and public access of the lands, contact the nearest DNR regional office. Contact information for DNR Regional Offices and Service Centers is provided on the following internet site:

[http://www.dnr.state.wi.us/open\\_door/visit-us/central-office.htm](http://www.dnr.state.wi.us/open_door/visit-us/central-office.htm)

Updates to this data set are ongoing, and will be incorporated into future releases when available.
