

would like to have a 10 ft. rule
for ice fishing state wide

people should not be able to drill
holes closer than 10 ft from a ice fishing
shack or other fishermen on the ice
except by approval of shack owner or fisherman

People are drilling holes next to
shacks & in front of doors & people could
get hurt as it makes it very slippery,
and some people can't get into their shack.

Be it resolved that the Conservation
Congress at its annual meeting held in
Can Claire, County on April 9th, 2008
recommends that the Conservation Congress
work with the Dept. to take action to correct
this situation by introducing rule change
allowing this 10 ft rule for ice fishing
