

**eCMAR SECTION INSTRUCTIONS:
Effluent Quality and Plant Performance (Ammonia - NH₃)**

1: Monthly and weekly average effluent values, exceedances, and points for NH₃:

Check the monthly or weekly average ammonia (NH₃) concentrations to ensure they are correct. If the numbers disagree with your reported values, recompute the monthly or weekly averages from the individual values. If any reported values are incorrect, please contact your Department representative by clicking the "CONTACT US" button or by telephone.

2: If any violations occurred, what action was taken to regain compliance?

If any permit limit exceedances are shown in part 1, type an explanation in the box of action(s) taken to regain compliance.
