

This is your GRADING GENERAL PERMIT

The Grading General Permit (GP) Attachment is to be used in conjunction with the "Water Resources Application for Project Permits (WRAPP)" and will not be accepted if submitted separately. Use this form when there is land-disturbing activity (e.g. grading, filling, removing or disturbing soil) more than 10,000 square feet on the *bank* of a public (navigable) waterway. Be advised the "Construction Erosion and Sediment Control" attachment is needed in addition to this General Permit Attachment if the land disturbing activity is one acre or more and the project is required to have an erosion and sediment control plan.

Please fill out the form below. After you clearly demonstrate the project is eligible for the GP, this permit application is "**Approved**" once it is signed and dated by an authorized Wisconsin Department of Natural Resources employee.

Section 1: Project Description

Landowner (<i>Applicant</i>) Name	County	Waterbody Name
Total Area of Construction Site (acres)		Total Estimated Disturbed Area (acres)

Section 2: Permit Eligibility

To qualify for this GP, your project must meet certain eligibility standards. Please review and certify "Yes" the project has been designed and will be constructed in compliance with **all** of the following GP eligibility standards. If your project does not meet all of the eligibility standards, you will need to apply for an Individual Permit (IP). Be advised the Department has the final discretion to determine GP eligibility and may require information in addition to the initial permit application submittal or require an Individual Permit (IP) if site-specific conditions require additional review.

General Permit Eligibility Standard	Yes
The grading site is not located adjacent to any of the following: a state natural area designated or dedicated under ss. 23.27 to 23.29, a federal wild and scenic river designated under s. 30.27, Stats., or 16 USC 1274(a)(8) and a state wild river designated under s. 30.26, Stats.	<input type="checkbox"/>
The project meets or exceeds the stormwater management technical standards of s. NR 151.11 and 151.12, Wis. Adm. Code for stormwater discharges. The technical standards are found at: http://dnr.wi.gov/runoff/stormwater/techstds.htm	<input type="checkbox"/>
The project maintains or establishes a vegetated buffer that meets the protective area distances below, which are also outlined in NR 151.12(5)(d) 1.a. to c. for lakes and streams and in NR 151.12(5)(d)1.a or d. to f. for wetlands. <ul style="list-style-type: none"> ✓ For Outstanding Resource Waters (ORW) and Exceptional Resource Waters (ERW), and for wetlands in Areas of Special Natural Resource Interest (ASNRI), as specified in NR 103.04, the vegetated buffer must be at least 75 feet. ✓ For perennial and intermittent streams identified on a U.S. geological survey 7.5 minute series topographic map, or a county soil survey map, whichever is more current, the vegetated buffer must be at least 50 feet. ✓ For lakes, the vegetated buffer must be at least 50 feet. ✓ For highly susceptible wetlands, which includes the following types: fens, sedge meadows, bogs, low prairies, conifer swamps, shrub swamps, other forested wetlands, fresh wet meadows, shallow marshes, deep marshes and seasonally flooded basins, the vegetated buffer must be at least 50 feet. ✓ For less susceptible wetlands, which are degraded wetlands dominated by invasive species such as reed canary grass, the vegetated buffer must be at least 10% of the average wetland width, but no less than 10 feet nor more than 30 feet. <p>NOTE: Vegetated buffer determinations for the protective area adjacent to wetlands must be made on the basis of the sensitivity and runoff susceptibility of the wetland in accordance with s. NR 103.03.</p>	<input type="checkbox"/>

<p>The difference in elevation between pre- and post-construction contours does not exceed 5 feet within the bank area.</p> <p>NOTE: The difference in elevation between pre- and post-construction contours may not exceed 10 feet for areas immediately adjacent to exposed or walkout basements within the bank area.</p>	<input type="checkbox"/>
<p>The grading does not disturb or create a slope that exceeds 20% within the bank area.</p>	<input type="checkbox"/>
<p>A re-vegetation plan will be implemented and monitored for one year after project completion that provides a self-sustaining vegetative cover of at least 70% for all pervious areas, and is sufficient to provide for bank stability, maintenance of fish habitat and filtering of pollutants from upslope overland flow areas under sheet flow conditions.</p>	<input type="checkbox"/>
<p>To stop the spread of invasive species and viruses from one public waterway to another public waterway, all equipment or portions of equipment used for constructing, operating, or maintaining the project will be decontaminated for invasive species and viruses before and after use or prior to use within another public waterway</p>	<input type="checkbox"/>
<p>Section 3: Submittal Requirements</p>	
	<p>Yes</p>
<p>I have submitted a \$300 PERMIT APPLICATION FEE, in the form of a check, payable to "Wisconsin DNR."</p>	<input type="checkbox"/>
<p>I have prepared and submitted DETAILED PLANS AND/OR DRAWINGS, which clearly illustrate the project has been designed and will be constructed in compliance with all of the General Permit Eligibility Standards.</p>	<input type="checkbox"/>
<p>I have submitted LEGIBLE SITE MAPS, which clearly illustrate the perimeter of the construction site and relationship to nearby water resources (e.g. lakes, rivers, streams, wetlands) and major landmarks and roads.</p>	<input type="checkbox"/>
<p>I have submitted CLEAR PHOTOGRAPHS, which illustrate the entire project site in pre-construction condition and the relationship to nearby water resources.</p>	<input type="checkbox"/>
<p>I have submitted a COMPLETED GENERAL PERMIT ATTACHMENT and provided 3 COPIES of the entire application package.</p>	<input type="checkbox"/>
<p>Section 4: Certification</p>	
	<p>Yes</p>
<p>I hereby certify that I am the owner or authorized representative of the owner of the property which is the subject of this permit application.</p>	<input type="checkbox"/>
<p>I certify that the project has been designed and will be constructed in compliance with all of the General Permit Eligibility Standards.</p>	<input type="checkbox"/>
<p>I certify that the information contained in this application submittal is true and accurate and understand that failure to comply with any or all of the provisions of the issued permit may result in permit revocation, a fine and/or imprisonment or forfeiture under the provisions of applicable laws.</p>	<input type="checkbox"/>
<p>I understand that I am responsible for obtaining all necessary local (e.g. city, town, village or county) and U.S. Army Corps of Engineer permits or approval in addition to this state General Permit and prior to commencing any work at the project site.</p>	<input type="checkbox"/>

Section 5: Permission

	Yes
I hereby give the Department permission to enter and inspect the property at reasonable times, to evaluate this notice and application, and to determine compliance with any resulting permit coverage.	<input type="checkbox"/>

Section 6: Landowner or Authorized Representative Signature

Please sign below. By signing you are certifying that all of the requested items contained in this permit application attachment has been fulfilled and the appropriate documentation is attached.

Signature		Date Signed

DEPARTMENT OF NATURAL RESOURCES USE ONLY
 PLEASE DO NOT MARK UP SECTIONS 7-9

Section 7: Findings of Fact

1. The Department has determined that the project site and project plans meet the standards in s. 30.206, Stats. and ch. NR 341, Wis. Adm. Code., to qualify for this General Permit.
2. The proposed project will not injure public rights or interests, cause environmental pollution as defined in s. 299.01(4), Wis. Stats., or result in material injury to the rights of any riparian owner, if constructed in accordance with this permit.
3. The Department and the applicant have completed all procedural requirements, and the project as permitted will comply with all applicable requirements of Section 30.206, Wis. Stats., and Chapters NR 102, 103, 150, 299, 310 and 341.

Section 8: Conclusions of Law

1. The Department has authority under ch. 30, Wis. Stats., and ch. NR 341, Wis. Adm. Code, to issue a permit for the construction and maintenance of this project.
2. The Department has complied with s. 1.11, Wis. Stats.

Section 9: Permit Conditions

1. The permit does not authorize any work other than what is specifically described in the application and plans dated as listed below and as limited by the conditions of the permit. A permittee shall obtain prior written approval of modifications from the department before modifying a project or amending permit conditions.

DATE OF PLANS: ____/____/_____
2. The permittee shall notify the department at telephone number listed below before starting construction and again not more than 5 days after the project is complete.

WDNR PHONE NUMBER: (____) ____ - _____

3. The permittee shall post a copy of this permit at a easily observed location on the project site visible from the waterway, beginning at least 5 days prior to construction and remaining at least 5 days after construction. The permittee shall also have a copy of the permit and approved plan available at the project site at all times until the project is complete.

4. Upon reasonable notice, the permittee shall allow access to the project site during reasonable hours to any department employee who is investigating the project's construction, operation, maintenance or permit compliance.

5. The permittee shall complete the project on or before the expiration date listed below. If the project is not completed by the expiration date, the permittee shall submit to the department a written request for an extension prior to the expiration date of the permit. The request shall identify the requested extension date and the reason for the extension. The department may grant a permit extension for good cause shown. The permittee may not begin or continue construction after the original permit expiration date unless the department grants a new permit or permit extension in writing.

PERMIT EXPIRATION DATE: ____/____/_____

6. The permittee shall submit a series of photographs to the department within one week of completion of work on the site. The photographs shall be taken from different vantage points and depict all work authorized by the permit.

7. The permittee shall maintain the project in good condition and in compliance with the terms and conditions of the permit, this chapter and s. 30.206, Stats.

8. The department may modify or revoke the permit if the project is not completed according to the terms of the permit or if the department subsequently determines the activity is detrimental to the public interest.

9. Acceptance of a general permit and efforts to begin work on the activity authorized by the general permit signifies that the permittee has read, understood, and agreed to follow all conditions of the general permit.

10. This project shall comply with all conditions identified in Wisconsin Administrative Code NR 341, and identified in the Instructions for the General Permit application.

11. Invasive species decontamination activities shall be performed by taking actions specified in a. to c. or h. Decontamination shall include either d., e., f., g., or h. for any equipment, or portions of equipment, that is used in non-frozen navigable waters when the air temperature is above 19 degrees Fahrenheit at the time the decontamination procedures take place.

- a. Inspect all equipment used for constructing, operating, or maintaining the project and remove all plants and animals, and other mud, debris, etc.
- b. Drain all water from equipment used in navigable waters.
- c. Dispose of plants and animals in the trash. An operator may not transfer plants or animals or water from one navigable waterway to another.
- d. Wash equipment at a temperature of not less than 212 degrees Fahrenheit water (steam clean).
- e. Wash equipment with soap and water or high pressure water of not less than 2000 pounds per square inch.

- f. Allow equipment to dry thoroughly for not less than 5 days.
- g. Disinfect equipment with 200 parts per million (0.5 ounces per gallon) chlorine for not less than 10 minute contact time. Every effort should be made to keep the disinfection solution and rinse water out of surface waters.
- h. Follow the most recent department approved disinfection protocols or department approved best management practices for infested waters. The department shall maintain on its website and make available at its offices a list of the most recent disinfection protocols or department approved best management practices for invasive species and viruses.

THIS PERMIT APPLICATION IS APPROVED WHEN IT IS SIGNED AND DATED BELOW BY AN AUTHORIZED DEPARTMENT OF NATURAL RESOURCES EMPLOYEE.
